

15 July 2021

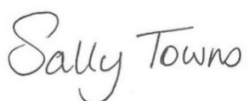

Dear Parents, Caregivers and Families,

I write to thank you for your understanding and continued support with the COVID restrictions now in place in our schools.

In this regard, I wish to be very clear that we are doing everything possible to keep our communities safe and all actions are in line with the requirements of the NSW Department of Health. We are disappointed the current restrictions do not allow parents into schools but look forward to the future easing of these restrictions. I am grateful for everyone's understanding and support of staff in schools as they continue to educate and care for all students in these unsettling and uncertain times.

I especially ask any parents, caregivers and families who have been in the Greater Sydney lockdown area to please adhere to the 14 day self isolation period. Learning material will be provided by your child/ren's school during the self isolation period. I thank you in advance for helping us keep school communities safe.

Yours sincerely,

Dr Sally Towns  
*Director of Catholic Schools,  
Diocese of Lismore*
